

USE CASE PERIMETER BREACH

Safe Schools

Operational View

DETECT

LICENSE PLATE RECOGNIZED

Suspended student's license plate detected entering school grounds and school security automatically receives an alert on their device of choice and in the command center.

ANALYZE

SITUATIONAL INTELLIGENCE GATHERED

Through a watch list of known individuals, the intruder is automatically detected approaching the school. Security receives a notification every time the intruder comes into view of a camera to monitor their movements.

COMMUNICATE

NOTIFICATION COMMUNICATED

Alert dispatched to staff across radios and smartphones, and security officers are dispatched to intercept the individual with images and real-time location updates.

RESPOND

FIRST RESPONSE DISPATCHED

School security officers contact local police and lock down the school, if necessary. The incident is documented with pre-populated fields.
